EMPLOYMENT DAY OF NODAWAY TEACHERS

HELD SATURDAY, MAY 29 WITH COUNTY SCHOOL SUPT.

FILL COUNTY VACANCIES

Arrangement Made to Aid Rural School Boards by Centralizing An Employment Agency Here.

Owing to the fact that few or no teachers are applying for positions in the rural schools of Nodaway county and that the members of the school boards are very busy with spring work and in many instances cannot take the time to travel around and hunt for teachers, County Superintendent A. H. Cooper, has arranged to have an employment day at Maryville on Saturday, May 29.

On that day, Mr. Cooper has requested that every school board that has not hired their teacher, be in Maryville or have a committee empowered to employ a teacher here, and that they register with the county superintendent and an effort will be made to put the boards in touch with the teachers.

It is hoped every vacancy in Nodaway county schools will be filled by that time as the teachers are now being employed by adjoining counties and a great many schools may be without teachers this year unless quick action is taken in the matter of employment.

Every effort will be used on this day to give boards confidential information on every teacher who seeks employment and no effort will be spared to place the best teachers first in such schools as will be suited to the particular individual temperament of the teacher.

Many teachers refuse to sign contracts until they are assured of a boarding place within reasonable distance from the school, so Mr. Cooper has also suggested that the school boards investigate the boarding proposition before coming to Maryville on employment day, and be prepared to say where the teacher can board and what the cost of board will be.

Every teacher who is not yet employed and who expects to teach in Nodaway county, is urged to come to Maryville and register with the county superintendent as every vacancy will be filled that day if possible, and the good teachers of Nodaway county will be given the first chance at the school. All positions not taken by Nodaway county teachers will be filled by those from outside districts.

MEXICAN REBEL CHIEFS RESTORE TELEGRAPH SERVICE

Use All Energy to Establish Normal Conditions in all Parts of the Republic.

Vera Cruz, May 20.—The rumor that Carranza has been captured in the Pueblo mountains is disregarded in official circles today. According to the last authentic reports, Carranza is still at large and the belief is growing the revolutionary leaders don't care whether they capture Carranza or not as he has been shorn of all power and authority. He may be allowed to escape to avoid embarrassment of trial. The rebel chiefs are bending all energies to bring Mexico back to normal and telegraphic communication is established in all parts of the republic.

Washington, May 20.—Carranza is now at Zacatlan in the direction of the Tuxpan oil district, according to reports published in Mexico City newspapers on May 19, and telegraphed the State Department today.

Miss Mary Ford will go to Des Moines, Ia., the first of next week for a several weeks visit at the home of her sister, Mrs. J. A. Longan. While there Miss Ford will visit the Des Moines public schools.

PRICE CUTTING WAVE SWEEPING OVER COUNTRY

Pressure Exerted by Banks in Wholesale Districts Credited With Reductions in Retail World.

Chicago, May 20.—The wave of price cutting in wearing apparel continued today to sweep the country, merchants in many cities and towns announcing reductions in men's and women's clothing, shoes, hats and other articles. Some merchants said the reductions could not be maintained after present stocks were exhausted.

Pressure exerted by banks in the wholesale dry goods and general merchandise districts was said to be responsible for the wave of price cutting in the retail trade.

The price cuts largely were confined to wearing apparel, but a spread of the movement to other lines was indicated by the action of Omaha dentists in reducing the price of dental work.

A newspaper advertisement by a Newark clothing concern today denounced price cutting as "an economic mistake," asserting "it is economically unsound to sell merchandise today for a price which is less than we can buy it for from the makers. What the world needs is greater production, not the drastic sacrifice of retail prices." Several Milwaukee merchants characterized the movement as a "circus stunt."

BETTER TEACHERS SOUND BUSINESS

DR. RICHARDSON SPEAKS BEFORE ST. JOSEPH COMMERCE CLUB.

NEED NEW ORGANIC LAW

Pleads for Voters to Support the Constitutional Amendment Giving $1 Revenue to Rural Schools.

Dr. Ira Richardson, president of the State Teachers College, spoke yesterday at a luncheon given by the St. Joseph Commerce Club, at the Robidoux Hotel. Dr. Richardson's subject was the educational outlook in Missouri and he presented the need of education, of good teachers as a sound business proposition, declaring the state should look for better returns when it has so much invested in educational institutions.

"We are using methods of yesterday in the schools," he said. "Despite our present equipment, modern methods, money, we still keep much of yesterday's activities."

"It is time for a new, up-to-date organic law for this state," said Doctor Richardson, in pleading for a new constitution for the state. "Our management of our educational activities is that of yesterday. Our state board of education is a board in name only. The members serve by virtue of holding other offices."

He presented figures on illiteracy, showed that the better teachers were leaving the profession, and declared many of the children are being taught by teachers with no training above the eighth grade.

"We should improve the teachers. We should demand trained ones all along the line. The state must pay in accordance with this training. We must have better housing for schools, better study places, we must improve supervision, and must improve community spirit in regard to the schools," he said.

"We have too long depended on native ability, and not training," he continued. "Increasing immaturity of teachers means increasing inefficiency of teaching. Teachers need an existence salary, a saving salary, and improvement or merit salary, and the state must provide for a system of subsidies and rewards, that will bring young men and women into the profession, and make it worth their while to stay in."

Dr. Richardson pleaded for a new state constitution. The speaker urged that the voters support the constitutional amendment next fall, which will permit the rural districts to vote a maximum of $1 for school revenue, instead of 65 per cent, as now.

General Wood's First Battle.

When Geronimo, the last of the great Apache chieftains, began murdering American women and most hideously torturing American children in New Mexico and Arizona, Leonard Wood, then an army surgeon, exchanging his surgeon's scalpel for a rifle, became one of a famous little company which chased the monster over the sandy and burning plains of the Southwest and northern Mexico, and did not desist until the enemy surrendered. The reports of Generals Lawton and Miles witness to the healthy-minded zeal which Wood manifested toward the barbarians who wreaked their savagery on American women and children; and the fact that Wood received that greatest of all military distinctions for his efficient bravery in this campaign—the medal of congress—is testimony of the same kind. —Burton J. Hendrick in the World's Work.

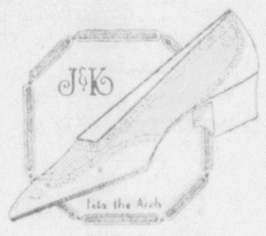
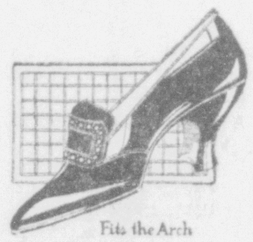
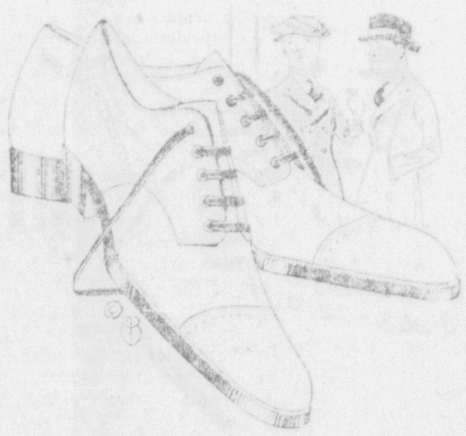
Do You Want To Save Money on Shoes







SOMEBODY HAS STARTED THE REPORT THAT SHOE DEALERS MAKE TOO MUCH MONEY. You know as well as we do that if there was a long profit some dealer would have cut prices long ago. You know if you stop to think that these stories are all bunk. That the retailer has to pay any advance the manufacturer sees fit to make. There has been no reduction in the wholesale price of shoes and there is no reduction in sight.

BUT WE ARE OVERSTOCKED WITH SPRING SHOES BECAUSE OF THE BACKWARD SEASON.

WE HAVE GOT TO CUT PRICES

or keep the shoes on the shelf. We have too much money tied up in this spring stock. WE MUST GET IT OUT. For that reason we have decided to make a general reduction all through our stock of

THIS IS A MIGHTY SUBSTANTIAL SAVING. It means that a shoe that has been selling for $10 will cost you $8. That a shoe that sells for $15 will cost you but $12.

THERE IS NO "BREAK" IN THE SHOE MARKET. WHOLESALERS are quoting advances for later delivery and some of these shoes will cost us more when we buy them again. But that is not the point. The point is that we MUST SELL THEM. So take advantage of our position and OUTFIT THE FAMILY AT THIS SALE.

Trunk Lines in the Air.

Long distance air transportation will soon be a commonplace. The successful trip from London to Australia recently completed has encouraged Great Britain to lay out a number of great air routes, connecting England by great trunk lines with its possessions. The service will be maintained at first by airships and later doubtless by airplanes. The first of these trunk lines will connect London with Canada by way of Newfoundland. Another line will operate between London and Egypt and will be extended to South Africa. The air lines will be backed by large government subsidies.—Boys' Life.

AN IMAGINARY HUSBAND

By VICTOR REDCLIFFE.

(Copyright, 1920, Western Newspaper Union.)

Some gossips of Rodmore learned that Miss Teresa Martin had been seen in the next town purchasing a pipe, an ash tray and a fancy smoking stand. At once in their inquisitive, babbling circle the decision was arrived at that the lady in question was about to become a devotee of the weed.

A little later, after a shopping visit to the city, one of her packages was left in the train. The conductor restored it to her, but not until he had informed his wife that it had contained a pair of lounging slippers, ... size, and the imputation spread ... boss Martin had a beau and was ... get married. Several busy-... commented Miss Martin hoping to ... the same of the suspicious articles.

"Those ol... obtained no sight of little Matilda ... audibly denounced Miss Martin emp... maid "om true blue and full a... who w... kind mistress who trave... and the siderately as she would ... con... She was talking to a neighb... ve. Idea! They just came ... scuttled around to see if they could get hold of some mean thing to say about the loveliest lady in the world. Why haven't they got sense enough to guess that Miss Martin has been making some presents to her cousins down at Evansville, who got married last month?"

But Matilda's mind was full of secret uneasiness while she thus defended her beloved mistress, and she marveled at a great mystery concealed within the precincts of the pretty little cottage home. For neither smoking outfit nor slippers had been sent away. They reposed at that very moment in a room which recently Miss Martin had transformed from a library into a den, and a man's den, at that. She kept that especial apartment securely locked up when strangers were around, but she could not hide its existence from Matilda. Bit by bit she had furnished it, and as various articles of comfort and luxury adapted to mankind solely were set in place, Matilda solved the enigma to her own satisfaction in the cautious soliloquy:

"She's got an imaginary husband!"

Yes, Matilda had correctly figured out the puzzle, and soon she knew a great deal more about it. Miss Martin, twenty-six, but still girlish, had never been wooed. She regretted the fact as she grew older, for life was monotonous and lonely. There was only one episode in her life that had approximated real interest in a member of the other sex on her part. About a year previous Alan Frisbie, whom she had known since he was a schoolmate, had come to her on the score of long-time friendship.

"Teresa," he said said, "I am not doing well in this town, and I want to try my luck further west. I need $200, and I want you to loan it to me if you have it and can spare it, to be faithfully repaid later. I wish to leave as security my dead mother's diamond ring, worth more than the amount."

"You offend me by hinting at such a thing as security," declared Teresa, but he pressed the pledge upon her. Then, with tears in his eyes he lifted her hand to his lips and kissed it, and wept with deep emotion.

"You are the noblest of womankind, Teresa, and life is worth a lot if it has been only to find such a true, good friend!"

A month later from a thousand miles distant there came a brief note, inclosing a few pressed violets which the wanderer had gathered on the top of one of the loftiest mountains in the West. After that silence and dreams.

Somehow the impressionable nature of Teresa craved some object to sentimentally consider. Her romance took the form of fitting up a room just as if it was for a husband, and she loved to sit there in the gloaming and think of the man who might never return, but who was a fond memory to her devoted soul.

Of all this—the treasured violets, the emotional moods of her gentle, kindly mistress—Matilda became fully aware, and enjoyed a stolen participation in the secret. It was months later, and Miss Martin had gone to the city and left her in charge of the house, when there came a summons at the street door, and there stood the returned wanderer. He looked eager and prosperous, he was cheery and friendly with Matilda. She had always liked him, she liked him better than ever now as, in her simple way, she debated with herself as to how far she dared venture to employ a present golden opportunity to let Alan Frisbie know just where he stood in the estimation of Miss Martin. Finally she decided.

"Mr. Frisbie," she said, "Miss Teresa will be mighty glad to see you."

"Think so?" replied Frisbie, all smiles.

"Yes, let me show you something," and Matilda secured the key of the den. She unlocked the door and ushered Frisbie into the room.

"She did that for you," continued Matilda to the amazed wanderer returned. "She had an imaginary husband—I mean you. Think—think hard what you are going to say to her when she comes."

It needed no thinking, but Alan Frisbie blessed the loyal, loving little creature who had led his footsteps straight into the garden of love.

General Wood's First Battle.

When Geronimo, the last of the great Apache chieftains, began murdering American women and most hideously torturing American children in New Mexico and Arizona, Leonard Wood, then an army surgeon, exchanging his surgeon's scalpel for a rifle, became one of a famous little company which chased the monster over the sandy and burning plains of the Southwest and northern Mexico, and did not desist until the enemy surrendered. The reports of Generals Lawton and Miles witness to the healthy-minded zeal which Wood manifested toward the barbarians who wreaked their savagery on American women and children; and the fact that Wood received that greatest of all military distinctions for his efficient bravery in this campaign—the medal of congress—is testimony of the same kind. —Burton J. Hendrick in the World's Work.

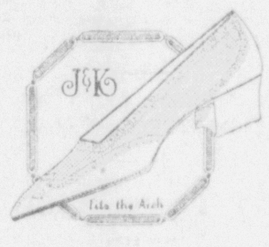
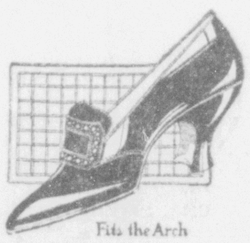
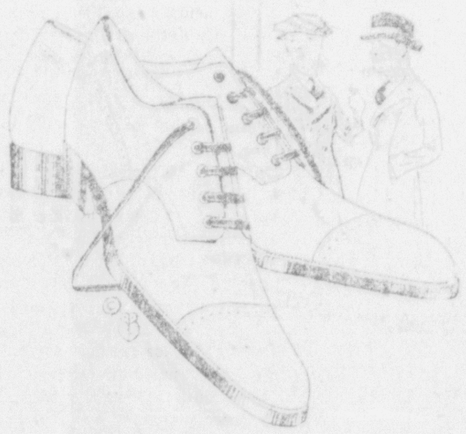
Do You Want To Save Money on Shoes







SOMEBODY HAS STARTED THE REPORT THAT SHOE DEALERS MAKE TOO MUCH MONEY. You know as well as we do that if there was a long profit some dealer would have cut prices long ago. You know if you stop to think that these stories are all bunk. That the retailer has to pay any advance the manufacturer sees fit to make. There has been no reduction in the wholesale price of shoes and there is no reduction in sight.

BUT WE ARE OVERSTOCKED WITH SPRING SHOES BECAUSE OF THE BACKWARD SEASON.

WE HAVE GOT TO CUT PRICES

or keep the shoes on the shelf. We have too much money tied up in this spring stock. WE MUST GET IT OUT. For that reason we have decided to make a general reduction all through our stock of

THIS IS A MIGHTY SUBSTANTIAL SAVING. It means that a shoe that has been selling for $10 will cost you $8. That a shoe that sells for $15 will cost you but $12.

American Slang Phrases That Became Popular Among the Filipinos and Frenchmen.

"All right" was generally the first English phrase the French picked up from American troops. "All right" answers probably a quarter of the questions that an American is called upon to reply to. In the great mass of jargon in a strange tongue, it stood out on account of constant repetition. The poilus were wont to practice it, over their cognac and svin blanc glasses, in place of their own "tres bien," and yell it out to the Yankees on the side of the cafe.

As the French mastered "all right," so the Filipinos took up "gangway" during the American occupation of the Philippine islands 20 years ago. Pursuing rough-house tactics that were not permitted during the last war in France, the American troopers would go down the streets of the island towns, pushing the natives into the gutter and yelling "gangway!" Several busybodies visited Miss Martin hoping to get a sight of the suspicious articles enumerated, but obtained no sight of the same.

"Those old cats!" volubly denounced little Matilda Brown, the maid whom Miss Martin employed, and who was true blue and full of love toward the kind mistress who treated her as considerately as she would a relative. She was talking to a neighbor. "The idea! They just came snooping around to see if they could get hold of some mean thing to say about the loveliest lady in the world. POLISH IN RETREAT ON NORTHERN BATTLE LINE.

London, May 20.—The Russian Bolshevik army on the northern end of the battle line has broken the Polish front over a width of fifty miles throwing the Poles into panicky retreat, it was claimed in a wireless dispatch from Moscow today. The Soviet war office reported the steady advance of Bolsheviki continues. Four villages have been captured. The dispatch revealed Kieff, capital of Ukrainia, is still held by the Poles and Ukrainians.

May Go to Hopkins as Pastor.

Rev. Ketchman, of Chicago filled the pulpit of the Presbyterian church at Hopkins last Sunday, preaching two sermons, and will fill the pulpit again next Sunday, morning and night. The church may extend him a call to become its pastor, Rev. Carriker vacating the pulpit the first of this month.

Cal Pierce for Congress.

Don't suppose he would have it, but if the Republicans should nominate Cal Pierce of Maryville for congress and he would accept same, he would be elected by a large majority, this district badly needing a man of his caliber to place it where it rightfully belongs in the eyes of the outside world.—Pickering Items in Hopkins Journal.

Miss Beatrice McGrew, who has been visiting relatives and friends in Nodaway county for the past six weeks, left this morning for her home at Denver, Colo. Enroute there she will stop at Ray, Mo., for a short visit with relatives.

Mrs. Henry A. Foster and her father-in-law, Thomas Foster, will leave tonight for Huntsville, Ala., where Mr. Foster will spend the summer with his daughter, Mrs. L. H. Ruch. Mrs. Foster will return to Maryville in about two weeks and enroute here will visit at points in Tennessee.

A TWICE-TOLD TALE.

One of Interest to Our Readers.

Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitate to believe it at first hearing, we feel secure in accepting its truth now. The following experience of the Maryville woman is confirmed after eight years.

Mrs. Martha Partridge, 901 E. 4th St., Maryville, says: "Some years ago I suffered from kidney and bladder complaint and I felt languid. I used Doan's Kidney Pills and received great relief and I am glad to recommend them. I cannot say too much in favor of Doan's." (Statement given December 13, 1911.) On March 31, 1920, Mrs. Partridge said: "I wish to confirm my former statement of 1911 as to the benefits obtained from using Doan's Kidney Pills. I have not had a return of the trouble and I am glad to say Doan's have permanently cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills—the same that Mrs. Partridge had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

UNDER A WAR REGIME.

"Did your daughter learn much at the cooking school?"

"Well, she learned how to make a lot of dishes we can't afford to eat."

Fitting Variety.

"I want a vine to plant on the grounds of this financier's country home on the sides sloping down to the road. What would you suggest? A creeper?"

"I would try some bank runner."

Classy Talk.

"That umbrella repairer has a flattering approach."

"What is it?"

"First asks the lady of the house if she has any golf clubs to mend."

MISS JAMES TO SING AT GRADUATION PROGRAM.

Miss Margaret James left this morning for Kansas City where she will give a musical program at the commencement exercises of the Kansas City school of Osteopathy to be held this evening.

Wolfers' Condition Still Serious.

Fred Wolfers writes from California that his brother, Ed C. Wolfers, Jr., is improving very slowly. It cheered him up wonderfully to see some one from home and his many friends are hoping it will not be long until a substantial change for the better is reported. The Wolfers family expect to return home this month if the condition of Mr. Wolfers permits.—Hopkins Journal.

The Ready Acceptance of

CHALMERS

is Nation-wide

WHEREVER automobiles are discussed the merits of "Hot Spot Chalmers" are freely conceded.

For its Ram's-horn and Hot Spot devices have solved the problem of extracting the maximum power from low grade "gas."

And Chalmers performance has proved that those engine troubles which are almost invariably associated with the use of this low grade "gas" have been eliminated.

Hot Spot "heats up" the raw "gas," "breaks it up" and vaporizes it into a "cloud."

This makes just the right kind of fuel for the cylinders.

Ram's-horn, with its easy air bends, rushes the "cloud," at a speed estimated at 100 miles an hour, an equal distance to each cylinder, and when the spark plugs ignite the "gas" you get *results*.

These two devices have done much for Chalmers. They have given it remarkable smoothness. They have brought down the item of repairs and replacements to an almost negligible sum per year.

Many now say Chalmers is one of the few great cars of the world. *Quality First*

"How Dry I Am. Nobody Knows How Dry I Am." There is likely to be more truth than poetry about this song as sung in Chicago and San Francisco next month.—Butte Miner.

A lot of people feel that peace with Mexico would be hastened if we could only get at that Mexican oil to pour some on the troubled waters.—Baltimore American.

"Pa, the whale that swallowed Jonah was the original profiteer, wasn't he?" "In what way, my son?" "Didn't he grab all the prophet in sight?"—Baltimore American.

How Money Grows

There is no safe way of making money grow faster than by systematic saving and deposits in a savings bank.

Every penny added to the account not only enlarges it but also draws interest from the time it is deposited.

In fact, in this bank, all deposits in the savings department that are made before the fifth of the month draw interest from the first.

Interest is compounded semi-annually, and all the interest that remains in the bank draws interest the same as the principle. That is, the bank pays interest on interest. Ask the teller at the savings window to show you how various amounts grow in a given time if deposited regularly.

PROUD DOLLAR AT 40 CENTS

In the Days Following the Civil War the Coin Fell Considerably Below Par.

Time was when the United States dollar, today worth $1.17 in Canadian money, could be picked up in Canada for 40 cents. Those were the far-off days of the Civil war, when the United States was being bled white by fratricidal strife.

During a considerable portion of the period between 1861 and 1865 the United States dollar brought 50 cents and even 40 cents. At one time things looked so black for the North that in Quebec the American greenback fell to 40 cents, whereas the Confederate dollar brought 35 cents. Not until about 1879 did the American dollar get to par.

Canada was flooded with Yankee notes during the civil war and private individuals made a lot of money buying them and selling them after peace was declared. The late Cool Burgess, a famous Toronto minstrel of years gone by, is said to have built the row of brick houses on the east side of Upper Simcoe street from the profits he made on a trunkful of greenbacks he accumulated when receiving record salaries on the stage in the United States.—Montreal Herald.

STEWED RABBITS GO HUNTING

Bunnies That Had Indulged Overfreely in Apple Juice Chase Their Enemies, the Dogs.

After being isolated by snowdrifts that choked the country roads for several weeks, Banksville, in the Connecticut hills near here, is again in touch with civilization, according to a Stamford (Conn.) dispatch to the New York Evening Sun of a short time ago. The channel of news was opened by J. S. Clark, dealer of the place, who poked his team through the snow and got into this city.

Clark reports that he discovered a groundhog, evidently disgusted with the weather he predicted about six weeks ago, perched on the limb of an elm tree near his home. While the animal was sunning itself Clark rifled his dog, which quickly dispatched the groundhog. It weighed seven pounds.

Clark also reported the rabbits are having the time of their lives, despite the prohibition law. He says they are getting intoxicated by eating the decaying apples found by clawing into the snow that yet covers the orchard lands and give chase to the hound dogs.

During his two-hour stay in town Clark said he was willing to swear to the veracity of these statements.

Lettuce by the Carload.

Lettuce is being grown on a field scale in the Imperial and Salt river valleys of California, fields of from 30 to 40 acres being not extraordinary. At the height of the production season—January and February—it is not uncommon for 20 carloads of lettuce a day to be shipped to the middle western and eastern markets. This lettuce, grown under irrigation, is produced by hand labor and is of extra fine quality. The industry was developed on a commercial basis about three years ago and during the last two years has been one of the leading agricultural occupations of the state. These localities also produce carrots, peas, cauliflower and table beans on a less extensive basis.

Money in Raising Dates.

When given proper care the date palm starts to bear at an early age and will bring the best results from the fifth year on. As it gains in age it gains in productive capacity, good palms from six to ten years bearing as high as 300 pounds of fruit per tree. It has been conservatively estimated that profits from a date plantation of choice imported varieties, given intelligent attention, should not fall short of $500 per acre for a number of years, and those who enter the field now will have better opportunities as the output is limited, and would reap the harvest coming to those producing a fine grade article, with a wide demand and limited supply.

FARM BUREAU WILL AID STATE FARMERS

TO BE DIVIDED IN THREE MAIN DEPARTMENTS THIS YEAR.

HAS 35,000 MEMBERS

"Cost of Production Plus a Reasonable Profit," Will be Demanded.

The Executive Committee of the Missouri Farm Bureau Federation, at a meeting in Columbia Monday and attended by John R. Evans, president of the Nodaway County Bureau, decided that its operations for 1920 will be conducted under three main departments: a farm marketing department, a legislative department and a department of publicity.

Forty counties having farm bureaus on the original plan, providing a one dollar annual membership, have reorganized on a fee basis of $5.00 to $10.00 and with greatly increased memberships. Aside from the several thousand farm bureau memberships in Missouri, who are still operating under the old one dollar plan, there are now more than 35,000 members on the higher membership fee.

The Farm Bureau organization of the state will continue, as it has in the past, to emphasize economy in production of farm crops, which necessarily includes efficient buying and selling. The Farm Bureaus were among the first to demand that farmers should receive proper pay for their labor and capital invested. The bureau has proceeded to develop an organization which will make it possible for the farmer to come clean handed before the world and demand "cost of production plus reasonable profit." Before he can do this, however, his cost of production must be reduced to the minimum, which implies that he must buy economically, produce efficiently, and sell with equal economy and efficiency.

The Missouri Federation will give its principal attention to the marketing phases of agriculture. It is not the idea of the Federation to go into the marketing business, but it will do everything possible to help farmers organize for marketing purposes and to supply information to those communities that are now in the game.

The legislative department Federation will attempt to be of mutual assistance to farmers and legislators alike in reflecting the needs and desires of the farmers of Missouri, and in helping to shape legislation to the end that agricultural interests may be adequately served. The Federation has not thought of making unreasonable demands in the matter of farmer legislation. There is a thoroughly settled conviction, however, in the minds of practically all farmers of the state that they have not been adequately considered in the past in matters of legislation. They have never had an organization to represent their interests. The Missouri Farm Bureau Federation with its backing of 35,000 members is prepared to do this.

Besides the preliminary study of the situation, which will be made prior to the meeting of the legislature, the Federation will establish the headquarters of its legislative department at Jefferson City.

A NEW CONSTITUTION.

Missouri has long been suffering under a constitution which no longer meets its needs. Attempts have constantly been made to bring about legislation for a new constitution for the state, but without success. The trouble has been that two great political parties have been afraid that a new constitution would favor one or the other. Accordingly they have killed every measure brought up to amend the Constitution.

It has been suggested that, since it seems improbable that any action will come out of the State Legislature, the constitution as it now stands be amended by initiative and referendum so that in addition to the bi-partisan representation from each senatorial district, fifteen delegates-at-large may be elected to represent Missourians in the constitutional convention. This plan would come nearer appealing to the politicians and would consequently meet with less opposition than the present one.

A technical objection that the people of Missouri cannot authorize a change in the constitution when the General Assembly cannot do so has been raised. As a technical matter this point may be well founded but from a common sense standpoint the initiative and referendum provides that the people of Missouri at all times constitutionally reserve the power to amend the constitution at any point, large or small. Surely the will of the people should not be limited by the constitutional restrictions which it is necessary to place about those who are employed as our representatives.

URGING GARDNER FOR U.S. SENATOR

MOVEMENT UNDER WAY TO DRAFT GOVERNOR TO MAKE RACE.

HAS REFUSED UP TO NOW

Petitions are Pouring in on the Governor From all Over the State to Become a Candidate.

(By A. T. Edmonston.)

Jefferson City, May 20.—"Will Governor Frederick D. Gardner listen to his friends, change his mind about not entering the Senatorial contest and toss his chapeau into the arena?"

It is the question which once more presents itself to Missouri Democracy and the answer is keenly awaited by party leaders all over the state who fully realize that the Governor and his record breaking efficiency administration achievements are assets which will easily and quickly swing 25,000 free-thinking independent electors into line for the state ticket next November.

It has been loudly whispered repeatedly by prominent and enfluential Democrats within hearing distance of the gubernatorial ear that wise men are expected to change their minds and that the moment they do and grasp a high honor the populace is willing to bestow that in the enthusiasm which naturally follows it is quickly forgotten that at first "Barkis was not willin'."

The final movement to draft Governor Gardner to make the race has completely taken possession of thousands of Missouri Democrats and their voices cannot be stilled. From every nook and corner of the state petitions are pouring into the Executive quarters pleading with the Governor to make the race and assuring him that the nomination will be handed him merely for the filing of his candidacy.

Not in the history of Missouri has such a lure been laid out to a Governor to become one of Missouri's two United States Senators and many years will elapse before it is repeated.

The senatorial call and lure which is being held out to Governor Gardner by 20,000 democrats who have enthusiastically petitioned him to become the Democratic nominee for United States Senator refuses, absolutely, to be sidetracked. If he once more fails to listen and get into the melee while the going is comfortable and good then the program to write his name in on the Democratic ballot on primary day in an attempt to tender him the nomination by popular vote will be carried out, regardless of the difficulties which handicap such a gigantic and unusual undertaking.

YOUR LIBERTY BOND.

The United States Government borrowed money from you to finance the war. You hold the Government's promise to pay you back. This promise is called a Liberty Bond or Victory Note. On this Bond is stated the conditions under which the Government borrowed the money from you.

For instance: If you hold a Bond of the Third Liberty Loan, it states that on April 15th and October 15th of each year until maturity, you will receive interest on the amount you paid for the Bond. Other issues bear other rates of interest and other maturity dates, all of which are clearly stated on the Bond.

Now, if you keep your Bond until the date when the Government pays you in full for it, you do not need to worry if, in the meantime, the price is low one day or high the next. You and Uncle Sam are living up to your agreement with each other, and neither will lose by it.

On the other hand, if you sell your Liberty Bond now, you will find that the man you sell it to will not give you a dollar for every dollar you paid for it. The price has been brought down beause so many people are offering to sell their Bonds. If the market is flooded with tomatoes, you can buy them cheap, but if everyone is clamoring for tomatoes and there are few to be had, the price goes up. The samo is true of Liberty Bonds. Short-sighted people are dumping them on the market, and wise one are buying them.

The best advice that can be given to the owner of a Liberty Bond is this: Hold the Bond you bought during the war; it is as safe and sound as the United States Government itself.

Buy as many more at the present low rate as you can afford. If you hold them to maturity, you are bound to make the difference between what they sell at now and their face value. You will also receive good interest on your investment.

Hold on to your Liberty Bonds and buy more.

Common Sense Talks With Women

Women should be taught by those of experience that their most precious possession is their health. Upon it depends happiness, success and attractive homes,—for no home can be attractive or happy with a despondent, nervous, irritable wife and mother, suffering from the ills peculiar to her sex, such as displacements, ulceration, inflammation, irregularities and the consequent headaches, backache, and dragging down pains.

It is such women who should listen to common sense advice and when such symptoms appear try that most successful of all medicines, Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs and contains no narcotics or harmful drugs, and which for more than forty years has been restoring American women to health.

Here is Proof.

Cokesberry, Fla.—"I had a tumor and suffered with a severe pain in my right side. I could not stoop to fasten my shoes and was not able to do my work. I went to the doctor and he gave me medicine and told me to stay in bed for at least fifteen days and not even to lift a basin of water till I could gain strength enough to be operated on for I never would be well without it. I remembered one of my aunts who had been in the same condition and was cured by your medicine so I took Lydia E. Pinkham's Vegetable Compound and got well completely. The tumor has disappeared and I am able to do anything I want to do. I recommend your medicine to my friends and you can publish my testimonial."—Mrs. S. F. Randolph, Box 18, Cokesberry, Fla.

Wakefield, Neb.—"I felt sick all over and did not know what to do with myself. I was irregular and had chills and night sweats, would vomit at that time. I suffered in this way for many years and had medicine from two doctors but they did me no good and so I lost faith in them. Finally my husband got tired of seeing me suffer so he got me a bottle of Lydia E. Pinkham's Vegetable Compound. It seemed to help me right away, then I got Lydia E. Pinkham's Vegetable Compound Tablets and took several boxes. Now I feel just fine all the time so it surely is a wonderful medicine. I have told several ladies about your medicine and you can use my testimonial."—Mrs. Juliet L. Primm, R. No. 1, Box 4, Wakefield, Nebraska.

THE GIANT SHIPYARDS AT HOG ISLAND, PHILADELPHIA, ARE CONVINCING EVIDENCE OF "DIAMOND CONSTRUCTION FOR STRENGTH."

An Automobile Starting Battery Guaranteed for Two Years!

A GUARANTEE is the measure of a manufacturer's faith in his battery—based on past performance. If he guarantees his battery for only ninety days or six months or a year, he is probably sure that it will last that long. But beyond the period of the guarantee he is asking you to take a risk which he is not willing to take himself. It is unbusinesslike for you to take such a risk when you can buy a Philadelphia Diamond Grid Battery that is guaranteed for TWO YEARS.

The Diamond Grid is the framework on which each of the plates is formed. Its "Diamond" Construction is similar to the Diamond Construction used on the ways and cranes at Hog Island and in most other strong structures. In your battery the Diamond Grid means strong plates and is your insurance against plate trouble.

The Philco Retainer is a sheet of hard rubber closely perforated with long narrow slots. A Retainer is placed flat against the active material on each side of each positive plate. In any battery the positive active material tends to slough off as the battery grows older. The slots in the Philco Retainer are so narrow that the material cannot readily pass through them and the result is greatly prolonged battery life.

The Truth About Tire Mileage

Know the mileage of your tires.

Otherwise you choose tires by guess.

Thousands of motorists, by adopting Miller Tires, have increased their average mileage 50 per cent to 75 per cent.

Try at least one Miller on that record, and see what it does for you.

Large tire users nowadays subject all good tires to million-mile comparisons.

Millers are winning those contests. And they have become the most talked-about tires in America.

At the factory, Millers are constantly compared with their rivals, and they constantly prove their supremacy. The new Miller treads outwear all others by 25 per cent.

When super-tires are being built, why not find them out? One test will be a revelation. Come and make it.
